MNM GLOBAL PARTNERS LLC – CAPABILITY STATEMENT

MNM Global Partners LLC is a multi-country consulting and implementation firm delivering innovative and scalable solutions across eight core service domains: market and economic systems development, employment and entrepreneurship, health and nutrition systems, resilient environment and climate systems, digital innovation, governance and institutional strengthening, human capital development, and measurement, learning, and adaptive management.

We operate through a growing network of consultants and associates across Africa, we aim to build strong partnerships with governments, development agencies, foundations, private-sector actors, and civil society organizations to drive systemic, inclusive, and sustainable impact.

WHO WE ARE

MNM combines global expertise with deep local insights to design, implement, and scale interventions that create inclusive, resilient, and competitive systems. Our teams have led multi-million-dollar development programs, supported private-sector innovations, and delivered measurable impact across fragile and emerging markets.

Our approach is grounded in:

- Systems thinking & adaptive management
- Evidence-driven problem solving
- Private-sector partnerships
- Human-centered design
- Technology-enabled solutions

CORE DOMAINS OF EXPERTISE OF MNM

1. **Market & Economic Systems Development**
   We design and scale inclusive market systems that unlock opportunities for smallholder farmers, entrepreneurs, and private-sector actors driving growth, competitiveness, and resilience.

2. **Employment, Entrepreneurship & Investment**
   We create pathways for youth employment and enterprise growth through skills development, business incubation, and innovative investment advisory services.

3. **Health, Nutrition & Social Protection Systems**
   We strengthen health and nutrition systems to improve access, equity, and

outcomes while advancing integrated social protection solutions for vulnerable populations.

4. **Resilient Environment, WASH & Climate Systems**
   We promote climate-smart practices, sustainable water and sanitation solutions, and community resilience initiatives that protect people and ecosystems.

5. **Measurement, Learning & Adaptive Management**
   We support organizations to measure systemic change, generate evidence, and adapt programs using data-driven insights and learning systems.

6. **Digital Systems & Innovation**
   We build and deploy digital solutions that connect people, markets, and systems enhancing efficiency, transparency, and scalability in development and business.

7. **Policy, Governance & Institutional Strengthening**
   We work with governments, private-sector institutions, and civil society to strengthen governance, policy reform, and institutional capacity for inclusive growth.

8. **Human Capital & Social Systems Transformation**
   We empower people through education-to-employment pathways, leadership development, and gender and social inclusion programs that enable equitable opportunity.

OUR VALUE PROPOSITION

- **Deep multi-sector expertise** across development and private-sector ecosystems
- **Strong regional presence** in Africa with proven delivery capability
- **Flexible and agile implementation models** tailored to local contexts
- **Experienced technical teams** with global and local expertise
- **Integrated digital solutions** for agriculture, finance, MEL, and service delivery
- **Proven results** in complex, multi-country, and multi-stakeholder programs
